right now, I would say either the 24th or 17th in that order from here. I am out on the 15th. Also I still need to hear back from HC for the CAC meeting.

▼ "Scott Jones" ---11/29/2012 12:19:51 PM---Donn- The best alternative dates for us would be either January 24th or 15th, in that order. But we

Donn-

The best alternative dates for us would be either January 24th or 15th, in that order. But we could work with either date.

Please let me know as soon as you can.

Scott

Good deal.

Depending on the date, the location would likely be at either the Highlands Community Center or at the [JD Walker Community Center](#) just across the San Jacinto River in Baytown, at 7613 Wade Rd. Another location that was not available on January 16th but might be available if we change dates is the [Martin Flukinger Community Center](#) at 16003 Lorenzo in Channelview. All are HCPCT2 facilities.

Reason we were thinking about changing from Highlands was to attract new folks, but we do not want to lose the core already attending.

Exactly. It would save on travel and accommodate TCEQ staff. also, where is this location?

Hi Donn-

If possible, I would like to set it up so y'all could attend if you wanted. Can you get with HCAO and see if you can come up with a date for the CAC meeting? Then, we could try to accommodate not only you but the folks coming from Austin for the CAC.

Thanks-
Scott

Scott, I have been out of the office. It would be good but not required to line this up with the Jan CAC mtg. That would be the 3rd or 4th week of Jan. And I will need to coordinate that date with HCAO. Also, EPA does not hold public events on Wed eve's, so we can discuss that. thanks

Subject: GBF/HARC public meeting on January 16th?

Hello Folks-

In case you wanted to attend and/or provide updates from your respective programs, I

wanted to see if the evening of Wednesday, January 16 would work for most of you the GBF/HARC (TAG) public meeting.

At that meeting, we will provide the audience with our review of the cleanup thus far, the timeline going forward, sources of information and opportunities for public involvement. We would also like to help further explain to folks the relationship between the SJRWP cleanup, the TMDL, and seafood advisories. We are open to other agenda ideas.

We would have it at either the Highlands Community Center or just across the river in Baytown at the J.D. Walker Community Center which is just north of I-10.

If that date doesn't work for you, please let me know and then we'll make a determination if we need to have it on another night.

Thanks-
Scott
